Texas Angus Futurity Show and Sale Set Oct. 9 At Pan American in Dallas

There has been a vast amount of the & Cry over th' fack that our bloated School Systems know more about how to plack th' Tax Payers than they do about poundin' some readin', writin' anithmetic into the skulls of the young ones. But, apparently, this fallure of the Eddicational System is no recent de-

velopmint. All you have to do is look around and you find all kinds of word answers beginning to surface. For instants, th' other day someone started apoculating about how far we tinues its present pace and it is had enough to make you head for th' Storm Cellar with a case of Old Early Grove to sooth your nerves. If price irends of the past five years are maintained re-sults will bogglo your mind. Take a peek at this and have a nice guiet shud-

The reserve grand champlen bull nward went to V Bar Bereford, Stanton, on V Rar II Dennine A711; the senior bull coll class winner. In the feesible mean and show at the senior bull coll class winner. "Sold your calves yet?"

"Yep, to the same guy that bought em last year."

Repeat buyers are satisfied buyers.

A good string of Hereford calves or yearlings always find ready buyers. Whether the market is up or down, they like the whitefaces. Buyers pay more for Herefords because their cost of gain is cheaper on grass or in the feedlot.

Confidence is knowing you can sell your product at market topping prices.

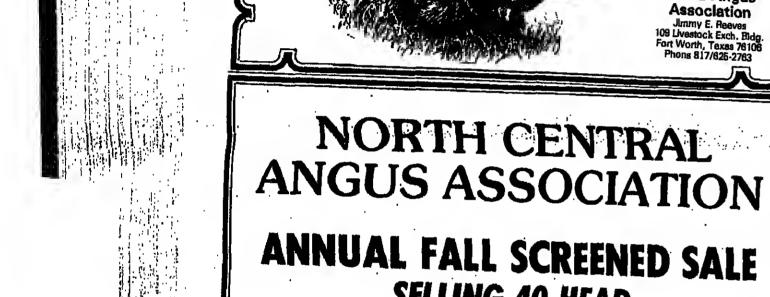

And confident cattlemen use the best horned Hereford bulls they can buy.

All things considered ...

Feeder Calf

lack Baldies, (Brangus/Hereford crosses), are in strong demand by feeders and bring top market prices for youl

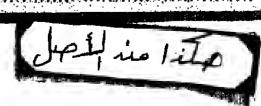

Black Baldies are an ideal feeder animal. Ask any commercial cowman about the great calves with 'a little ear". Medium-sized at birth, they make calving easy for any type of cow. They gain quickly on feed or forage, and average 75 to 100 pounds heavier at weaning than English breeds.

Brangus feeders mean fewer problems for the operator because they are adaptable to climactic extremes and are pest and disease resistant. But most important, Brangus feeders are consistently PROFITABLE. They lay down internal fat early and finish early with enough marbling to grade choice. Brangus calves are preferred - by stockers, feeders, packers, and consumers. If you want PROFIT, you need BRANGUSI

For information about scheduled events, upcoming sales, and sale catalogs, call collect: Lauren Mayhew, Secretary, Texas Brangus Breeders Association, P.O. Box 570, Sealy, Texas 77474. Tel. (713)

Survey Indicates **Farmers Favor** Less Regulation

October 5, 1978

Illustrating an increasing demand for best government intervention, almost 80% of the respondents in a recent survey by international liarvester's Farm Forum magazine said they were nut in layor of a national woter policy that would set guidelines for water use and quality. The survey concerning water was issued in the company's quarterly publicotion, reaching over one million farmera, agri-husineasmen and sgri-influentials. And of the fad peopla responding, if water use was to be controlled or regulated, 60% believed that the allocations or decisions should be mede at thal local level of government.

Illustrating an increasing demand for Enamingor, Prealdent of Alhers Milling are heing mailed this week to cattle heredon for Carnation. They advise a division of Carnation. They alive is to transport a large times through the many of Sterling. Expo Presdent sanounced.

Since its inception in 1968-69, Great Western Beel Expo has become internationally known as a competitive beaf progeny testing program open to all breeds and croashreeds of estite. Early year, heef industry people from many attend the final program, when the animals are heing mailed this week to cattle heredors in over 15 states and Canada, liary Ramey of Sterling. Expo Presdent sanounced.
